

CERTIFIED STRAW GRAB & GO®

COMPRESSED BALES

Standlee Premium Western Forage® Straw is used for animal bedding, erosion control, decorating and composting. Straw is not recommended for equine bedding as horses may consume it causing digestive problems. Standlee Premium Western Forage® Certified Straw Compressed Bales are easy to handle and convenient for storing. Straw is non-perishable and can last for long periods of time if stored properly. Always store forages in a cool, dry and well-ventilated area. As long as the product is properly stored, straw can last for well over a year or more. Standlee Premium Western Forage® Certified Straw Grab & Go® Compressed Bales are shrink-wrapped and have a handle for easy handling and convenient storage. Available in 50 pound bales.

Benefits:

- Easy to handle and store.
- No product loss or mess in transit.
- Certified noxious weed free.
- Non-equine bedding, composting and chicken coops.

Notes:

Nutritional note — Certified straw intended for bedding or composting purposes and not a source of nutrition.

Landscaping note — Barley or wheat seeds may be present and may germinate if used in gardens or for erosion control.

If you have questions, please contact Standlee Premium Western Forage®.

Ingredients:

Naturally Sun-Cured Premium Barley or Wheat Straw

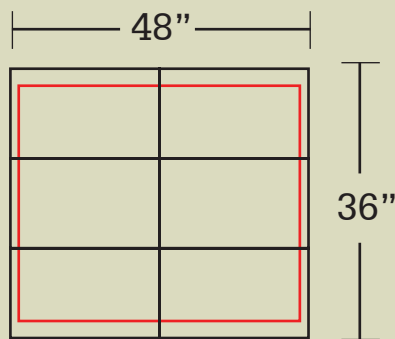

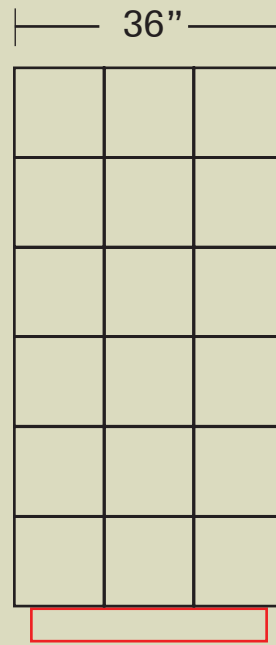

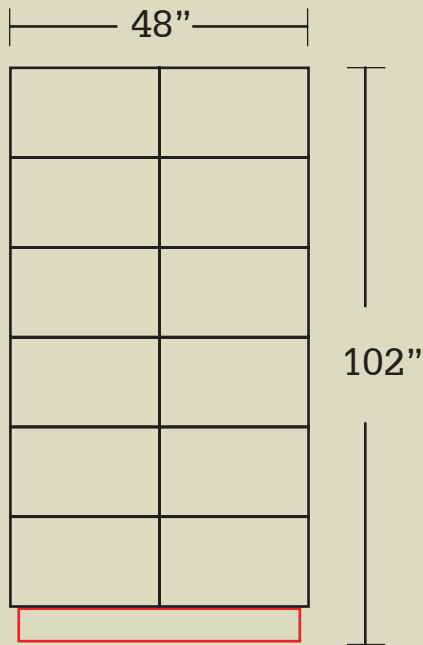

Recommended for:

Cattle, bison, goat, sheep, camel, llama, alpaca, deer and elk.
